

Company Webinar: Share your exclusive expertise with automotive engineers

Convey your competence and present your **innovative and new technology solutions and services** during a company webinar, together with the AUTOMOTIVE CIRCLE. Inform interested engineers about technical developments and new ways of application and operation as well as about their advantages.

During this online event, you will be **addressing the audience by providing fresh inspirations**. Thus, you have the chance to gain new customers and to strengthen existing customer relations.

Connect with the international participants digitally, **directly at their workplace or in their homeoffice, in front of the laptop**. You decide on subject, speaker, date and time. And you design and handle yourself the **moderation with your team**.

AUTOMOTIVE CIRCLE will take over the marketing campaign.

The length of your webinar should be 60min max. We recommend approx. 35 - 45 minutes for your presentation plus 25 - 15 minutes for Q&A.

You benefits:

- **Attention** => Announcement via the digital channels of AUTOMOTIVE CIRCLE
- **Canvassing** => E-direct mailing to the selected, interested target group
- **Interaction** => Q&A via chat with the speaker
- **Contacts** => List of registered persons (*name of delegate, company name, full company address and E-Mail if disclosure approved; without opt-in, it will be name of delegate, company name, city, country*)
- **Time saving** => Organisation und technical monitoring by AUTOMOTIVE CIRCLE

Your investment:

4,900 EUR *plus VAT where applicable*

Important note:
